Manager**

**Owned and operated by  
Harvard Business School MBAs**

## Executive Summary

RESILIFT is a General Contractor (GC) delivering flood-proofing construction projects for private and government clients. We have served as project managers for disaster recovery GCs executing government programs.

We seek government work as a stand alone firm and with senior partners in the form of teaming agreements.

RESILIFT provides full-service, **boots-on-the-ground construction management and self-performs 100% of general contractor functions. We subcontract with local engineers for design and trade contractors for on-site delivery**, and maintain relationships with local firms.

## Past Performance

RESILIFT has delivered or co-managed over **100** end-to-end house-lifting projects across 6-states. We have proven the on-site and financial skills necessary to deliver on-time and on-budget:

### **Public Sector Experience:**

- Served as Project Management Subcontractors for a large North Carolina based disaster recovery GC.
- Managed 4 house-lifts at-a-time, delivered in <60 days.
- Assistant Program Lead for the delivery of 30 projects in a \$7.7M contract with the NC state government.

### **Private Sector Experience:**

- **New Hampshire:** Served as Project/Program Manager and VP of Business Development for a large structural moving company executing more than 50 profitable house-lifting projects throughout New England (NH, ME, MA, & CT).
- **New Jersey:** Currently managing multiple house-lifting projects for homeowners throughout the Jersey Shore.
- **P&L Management:** Our owners have managed more than \$7M of live, profitable deal flow without loss.
